

Veterinary Consent/Referral Form

A joint project between Cat Professional Ltd and The Royal (Dick) School of Veterinary Studies has seen the launch of the UK's first RCVS Specialist run feline geriatric clinic. Appointments at the Cat Professional Specialist Geriatric Cat Clinic at the Royal Dick are by referral only and this form **must** be signed by a referring Veterinary surgeon, who will also be supplied with a full copy of the report following the appointment. Patients will be seen by Dr Sarah Caney, one of only 9 RCVS Specialists in feline medicine working in the UK.

Consultations are priced at £60 + VAT, last between 30 and 45 minutes and include a detailed history, physical examination, blood pressure measurement, ophthalmic examination and basic urinalysis. Where indicated, and following discussion, further tests may be performed, at an extra charge. For more information see www.catprofessional.com or call 0131 208 0298.
